

5.PROMOTING INCLUSION,QUALITY AND DIVERSITY

Alongside associated procedures in 05.1 Promoting inclusion, equality and diversity, this policy was adopted by Kids Corner Nursery LTD on *1st July 2022*.

All early years settings must consider and meet relevant employer and service provider duties as set out in the Equality Act (2010). Those in receipt of funding must eliminate discrimination including indirect, direct discrimination, discrimination and harassment based on association and perception and discrimination for reason relating to a disability or by failing to make a reasonable adjustment to any provision, criterion, or practice. This duty is anticipatory. Settings must advance equality of opportunity and foster good relations with individuals and groups with protected characteristics namely disability, race (ethnicity), religion and belief, sexual orientation, sex (gender), gender reassignment, age, pregnancy and maternity, marriage, and civil partnership.

Aim

Our provision actively promotes inclusion, equality of opportunity and the valuing of diversity.

Objectives

We support the definition of inclusion as stated by the Early Childhood Forum:

'Inclusion is the process of identifying, understanding and breaking down the barriers to participation and belonging.'

We interpret this as consisting of several tasks and processes in relation not only to children but also to parents and visitors in the setting. These tasks and processes include awareness and knowledge of relevant barriers to inclusion for those with a protected characteristic namely:

- disability
- gender reassignment
- pregnancy and maternity
- race
- religion or belief
- sexual orientation
- sex (gender)
- age
- marriage or civil partnership (in relation to employment)

This includes unlawful behaviour towards people with protected characteristics. Unlawful behaviour being direct discrimination, indirect discrimination, associative discrimination, discrimination by perception, harassment, and victimisation (in addition, we are aware of the inequality that users facing socio-economic disadvantaged may also encounter). We will not tolerate behaviour from an adult which demonstrates dislike and prejudice towards groups and individuals living outside the UK (**xenophobia**). This also applies

to the same behaviour towards specific groups of people and individuals who are British Citizens residing in the UK.

We promote understanding of discrimination - through training and staff development - the causes and effects of discrimination on both adults and children and the long- term impact of discrimination; the need to protect children from discrimination and ensure that childcare practice is both accessible and inclusive; the need for relevant support to allow children to develop into confident adults with a strong positive self-identity.

- Developing practice that includes:
 - Developing an environment which reflects the 'kaleidoscope' of factors that can provide settings with a myriad of influences and ideas for exploring and celebrating difference.
 - Ensuring that barriers to inclusion are identified and removed or minimised wherever possible; for example, we complete 01.1b Access audit form.
 - Understanding, supporting and promoting the importance of identity for all children and recognising that this comprises multiple facets which are shaped by a 'kaleidoscope' of factors including British values, 'race' ethnicity and culture, gender, difference of ability, social class, language, religion and belief, and family form and lifestyle, which combine uniquely in the identity of each individual; for example, we welcome and promote bi/multi-lingualism and the use of alternative communication formats such as sign language, and we promote gender equality while at the same time recognising the differences in play preferences and developmental timetables of girls and boys.
 - Recognising that this 'kaleidoscope' also reflects negative images which may be internalised and negatively affect the development of self-concept, self-esteem, and confidence.
 - Promoting a welcoming atmosphere that genuinely appreciate British values, different cultural and personal perspectives, without stereotyping and prejudicing cultures and traditions on raising children, by always involving parents.
 - Promoting community cohesion and creating an environment that pre-empts acts of discrimination so that they do not arise.
 - Recruitment of staff to reflect cultural and language diversity, disabled staff, and staff of both genders.
 - Addressing discrimination as it occurs from children in a sensitive, age-appropriate manner to ensure that everyone involved understands the situation and are offered reassurance and support to achieve resolution.
 - Challenging discriminatory behaviour from parents, staff or outside agencies or individuals that affect the well-being of children and the early years community.
 - Creating an ethos within which staff work confidently within a culturally complex environment; learning when to change or adapt practice in the setting and having the confidence to challenge practice (including parental) that is not in the child's best interest, seeking support and intervention from agencies where appropriate.

- Ensuring that practitioners work closely with the Special Educational Needs Coordinator to make sure that the additional needs of all children are identified and met.
- We are aware of anti-discriminatory legislation and able to use it to shape the service and support parents and children against discrimination in the local community, for example, against asylum seekers, the Travelling community and same sex parents.
- We regularly monitor and review our practice including long-term preventative measures to ensure equality such as auditing of provision, formulating an equality plan, applying impact measurements and positive actions. In addition, short term measures such as recognition and assessment of children's additional support needs (e.g. impairment, home language, family hardship, specific family beliefs and practices), day-to-day activities, provision of suitable support and resources, activity programme and curriculum., assessment, recognition of special educational needs and developing inclusive relationships.

5.PROMOTING INCLUSION,QUALITY AND DIVERSITY

5.1 Identification, assessment and support for children with SEND

We have regard for the Special Educational Needs and Disability (SEND) (DfE and DoH 2015) which states that local authorities must ensure that all early years providers that they fund in the maintained, private, voluntary and independent sectors are aware of the requirement on them to meet the needs of children with SEN and disabilities. When securing funded early education for two, three- and four-year-olds local authorities should promote equality and inclusion for children with disabilities or SEN; this includes removing barriers that prevent access to early education and working with parents to give each child support to fulfil their potential. During the Covid outbreak we will review and update children's SEN support plans more frequently to ensure their progress and well-being.

We designate a member of staff to be the Special Educational Needs Co-ordinator (SENCO) and give his/her name to parents. Our SENCO is

ASMA ADAM

The term SEN support defines arrangements for identifying and supporting children with special educational needs and/or disabilities. We are required to offer appropriate support and intervention and to promote equality of opportunity for children that we care for. Children's SEND generally falls within the following four broad areas of need and support:

- communication and interaction
- cognition and learning
- social, emotional and mental health
- sensory and/or physical needs

Graduated approach

Initial identification and support (identifying special educational needs)

- Ongoing formative assessment forms part of a continuous process for observing, assessing, planning and reviewing children's progress.
- Children identified as having difficulty with one or more area of development should be given support by applying some simple strategies and resources.
- For most children application of some simple differentiation approaches will be enough to build confidence and help the child develop, 9.12a SEN Support: Initial record of concern form can be used for this purpose.
- If despite applying differentiated strategies a child continues to struggle and is showing significantly more difficulty with learning than their peers or has a disability which requires specific adjustments, then the key person should raise a concern with the setting's SENCo/setting manager and the child's parents.

Observation and assessment of children's SEN

Where a child appears to be behind expected levels, or their progress gives cause for concern, practitioners should consider all the information about the child's learning and development from within and beyond the setting.

- Information can be collated from formal checks such as the progress check at age two, observations from parents and observation and assessment by the setting of the child's progress.
- When specialist advice has been sought externally, this is used to help determine whether or not a child has a special educational need (SEN).
- The child's key person and SENCo/Manager use this information to decide if the child has a special educational need.
- If the decision is that the child does have a SEN and the parents are not already aware of a concern, then the information is shared with them. Once parents have been informed, they should be fully engaged in the process, contributing their insights to all future actions for their child.

Planning intervention

- Everyone involved with the child should be given an opportunity to share their views. Parents should be encouraged to share their thoughts on the child's difficulties and be involved in the decision as to what will happen next.
- A first intervention option may be to carry on with applying differentiated support and to review the child's progress at an agreed date. If the child's needs are more complex, then the decision maybe to go straight ahead and prepare 5.1a SEN support: Action plan with detailed evidence-based interventions being applied straight away and simultaneously external referrals made.
- If relevant, then the child should be appropriately included in development of the action plan but only at a level which reflects their stage of comprehension.
- 5.1a SEN support: Action plan described below, ensures that children that are identified, or suspected of having a SEN will receive the right level of support and encouragement with their learning and development as early as possible.

Involving the child

- The SEND Code of Practice supports the rights of children to be involved in decisions about their education.
- Inclusion of children with SEND helps build self-confidence and trust in others.
- Ascertaining children's views may not be easy, a range of strategies will be needed.
- Accurate assessment helps identify children's strengths and possible barriers to learning.
- The key person and setting manager/SENCo work in partnership with parents and other agencies to involve the child wherever appropriate.
- Children are involved at appropriate stages of the assessment and to their level of ability.
- Establishing effective communication is essential for the child's involvement.

SEN action plan

- 5.1a SEN support: Action plan, should show what support is required to help achieve outcomes for the child and detail the frequency of these interventions and who will apply them and with what resources.
- A review date (at least termly) should be agreed with the parents so that the child's progress can be reviewed against expected outcomes and next steps agreed.
- A copy of the plan is stored in the child's file so that any other member of staff or an inspector looking at the file will see how the child is progressing and what interventions have been or are being applied.
- If a child requires specific medical interventions during their time in the setting, a Health care plan form should also be completed and integrated into the general plans to ensure the child's medical needs are known and safely met.
- The action plan should provide an accessible summary of the child's needs, which can be used if further assessment is required including a statutory Education Health and Care (EHC) Assessment, and development of an EHC plan.

Drawing up a SEN action plan

- If external agencies are already involved at this stage, then they should also be invited to help decide on what appropriate interventions are needed to help meet outcomes for the child. The SENCo/setting manager should take the lead in coordinating further actions including preparation of the action plan and setting short-term targets.
- Where there are significant emerging concerns (or an identified special educational need or disability) targeted action plans are formulated that relate to a clear set of expected outcomes and stretching targets.
- 5.1a SEN support: Action plan, highlights areas in which a child is progressing well; areas in which some additional support might be needed and any areas where there is a concern that a child may have a developmental delay (which may indicate a special educational need or disability). It describes the activities and strategies the provider intends to adopt to address any issues or concerns.
- Planned intervention should be based on the best possible evidence and have the required impact on progress with longer-term goals covering all aspects of learning and development and shorter-term targets meeting goals.
- The plan should focus on the needs of the child, the true characteristics, preferences, and aspirations of the child and involvement of the parents with a clear set of targets and expected outcomes for the child. Effective planning at this stage should help parents and children express their needs, wishes, and goals:
 - focus on the child as an individual and not their SEN label
 - be easy for children to understand and use clear ordinary language and images, rather than professional jargon
 - highlight the child strengths and capacities
 - enable the child, and those who know them best, to say what they have done, what they are interested in and what outcomes they are seeking in the future
 - tailor support to the needs of the individual

- organise assessments to minimise demands on families
- bring together relevant professionals to discuss and agree together the overall approach
- If the child fails to make progress and multi-agency support is sought, then it is at this point that Early Help/CAF assessment should be considered.

Record keeping

If a child has or is suspected of having a SEN, a dated record should be kept of:

- the initial cause for concern and the source of this information, (the progress check at age two and/or outcomes of previous interventions). 5.1a SEN support: Initial record of concern form can also be used for this purpose drawing information from other sources
- the initial discussion with parents raising the possibility of the child's SEN
- the views of the parents and other relevant persons including, wherever possible, the child's views;
- the procedures followed with regard to the Code of Practice to meet the child's SEND e.g. SEN action plan, referrals to external agencies and for statutory assessment
- evidence of the child's progress and any identified barriers to learning
- advice from other relevant professionals; and all subsequent meetings with parents and other persons and any subsequent referrals

Records may include

- observation and monitoring sheets
- expressions of concern
- risk assessments
- access audits
- health care plans (including guidelines for administering medication)
- SEN action plans
- meetings with parents and other agencies
- additional information from and to outside agencies
- agreements with parents
- guidelines for the use of children's individual equipment; Early help CAF referrals
- referral to the local authority identifying a child's special educational needs and request for statutory Education, Health, Care (EHC) needs assessment; and a copy of an EHC plan

Seeking additional funding/enhanced/top up

If the child's needs cannot be met from within the setting's core funding, then it will be at this point that the evidence collated will be used to apply for top up/enhanced funding from the local authority's inclusion fund. If a new or existing child is disabled, then the setting should check if the family is in receipt or have applied for Disability Living Allowance. If so, the setting will be able to apply to their local authority for the local Disability Access Fund.

Statutory education, health and care (EHC) assessment and plan

Statutory assessment

- If a child has not made progress, then the next steps may be for the child to undergo an Education, Health and Care Assessment.
- If a child is under compulsory school age, the local authority will conduct an EHC needs assessment if they consider that the child's needs cannot be met within the resources normally available to the early years setting.
- Children aged under age two are eligible where an assessment has indicated that the child is likely to have SEN which requires an EHC plan when they reach compulsory school age.
- When a child's needs appear to be sufficiently complex, or the evidence suggest specialist intervention then the local authority is likely to conclude that an EHC plan is necessary
- The local authority should fully involve the parent and must seek advice from the setting in making decisions about undertaking an EHC assessment and preparing an EHC plan.
- Settings should prepare by collating information about the child's SEND including:
 - documentation on the child's progress in the setting
 - interventions and support provided to date
 - evidence of external agency assessment, support and recommendations
 - parental views and wishes (and where appropriate those of the child)

The information will then be submitted to the local authority to allow them to accurately assess the child in the context of the support already given.
- The local authority must inform the child's parents of their decision within six weeks of receiving a request for an assessment and give its reasons for their decision. If the local authority decides to conduct an assessment, it must ensure the child's parents are fully included right from the beginning and are invited to contribute their views. If the local authority subsequently decides not to conduct an assessment it must then inform the parents of their right to appeal that decision, of the requirement for them to consider mediation should they wish to appeal.
- If the local authority decides that a statutory EHC plan is not necessary, it must notify the parents and inform the provider, giving the reasons for the decision. This notification must take place within 16 weeks of the initial request or of the child having otherwise been brought to the local authority's attention.
- If the decision following an assessment is to compile an EHC plan the local authority should consult collaboratively with the parents in the preparation of the plan ensuring that their views and their child's preferences are taken into account and that plans describe positively what the child can do and has achieved to date.
- Plans are evidenced based and focus on short term outcomes and long-term aspirations for the child including family and community support. Parents have the right to request a particular provision for their child to be named within their EHC plan.

- If an early years setting is named, the local authority must fund this provision. They cannot force a setting to take a child and can only name the provision in the EHC if the setting agrees.
- Local authorities should consider reviewing an EHC plan for a child under age five at least every three to six months. Such reviews would complement the duty to carry out a review at least annually but may be streamlined and not necessarily require the attendance of the full range of professionals, depending on the needs of the child. The child's parents must be fully consulted on any proposed changes to the EHC plan and made aware of their right to appeal to the Tribunal.

External intervention and support

Where external agency intervention has been identified to help support a child with SEND then this intervention should be recommended in writing by a suitably reliable source such as a speech and language therapist, paediatrician or educational psychologist.

5.PROMOTING INCLUSION,QUALITY AND DIVERSITY

5.2 British values

Policy statement

We actively promote inclusion, equality of opportunity, the valuing of diversity and British values.

Under the Equality Act 2010, which underpins standards of behaviour and incorporates both British and universal values, we have a legal obligation not to directly or indirectly discriminate against, harass or victimise those with protected characteristics. We make reasonable adjustments to procedures, criteria and practices to ensure that those with protected characteristics are not at a substantial disadvantage. As we are in receipt of public funding we also have a public sector equality duty to eliminate unlawful discrimination, advance equality of opportunity, foster good relations and publish information to show compliance with the duty.

Social and emotional development is shaped by early experiences and relationships and incorporates elements of equality and British and universal values. The Early Years Foundation Stage (EYFS,2021) supports children's earliest skills so that they can become social citizens in an age-appropriate way, that is, so that they are able to listen and attend to instructions; know the difference between right and wrong; recognise similarities and differences between themselves and others; make and maintain friendships; develop empathy and consideration of other people; take turns in play and conversation; avoid risk and take notice of rules and boundaries; learn not to hurt/upset other people with words and actions; understand the consequences of hurtful/discriminatory behaviour.

Procedures

British Values

The fundamental British values of *democracy, rule of law, individual liberty, mutual respect and tolerance for those with different faiths and beliefs* are already implicitly embedded in the 2014 EYFS and are further clarified below, based on the *Fundamental British Values in the Early Years* guidance (Foundation Years 2015):

- *Democracy*, or making decisions together (through the prime area of Personal, Social and Emotional Development)
 - As part of the focus on self-confidence and self-awareness, practitioners encourage children to see their role in the bigger picture, encouraging them to know that their views count, to value each other's views and values, and talk about their feelings, for example, recognising when they do or do not need help.
 - Practitioners support the decisions that children make and provide activities that involve turn-taking, sharing and collaboration. Children are given opportunities to develop enquiring minds in an atmosphere where questions are valued.

- *Rule of law*, or understanding that rules matter (through the prime area of Personal, Social and Emotional Development)
 - Practitioners ensure that children understand their own and others' behaviour and its consequence.
 - Practitioners collaborate with children to create rules and the codes of behaviour, for example, the rules about tidying up, and ensure that all children understand rules apply to everyone.
- *Individual liberty, or freedom for all* (through the prime areas of Personal, Social and Emotional Development, and Understanding the World)
 - Children should develop a positive sense of themselves. Staff provide opportunities for children to develop their self-knowledge, self-esteem and increase their confidence in their own abilities, for example through allowing children to take risks on an obstacle course, mixing colours, talking about their experiences and learning.
 - Practitioners encourage a range of experiences that allow children to explore the language of feelings and responsibility, reflect on their differences and understand we are free to have different opinions, for example discussing in a small group what they feel about transferring into Reception Class.
- *Mutual respect and tolerance*, or treating others as you want to be treated (through the prime areas of Personal, Social and Emotional Development, and Understanding the World)
 - Practitioners create an ethos of inclusivity and tolerance where views, faiths, cultures and races are valued and children are engaged with the wider community.
 - Children should acquire tolerance, appreciation and respect for their own and other cultures; know about similarities and differences between themselves and others, and among families, faiths, communities, cultures and traditions.
 - Practitioners encourage and explain the importance of tolerant behaviours, such as sharing and respecting other's opinions.
 - Practitioners promote diverse attitudes and challenge stereotypes, for example, sharing stories that reflect and value the diversity of children's experiences and providing resources and activities that challenge gender, cultural or racial stereotyping.
- *In our setting it is not acceptable to:*
 - actively promote intolerance of other faiths, cultures and races
 - fail to challenge gender stereotypes and routinely segregate girls and boys
 - isolate children from their wider community
 - fail to challenge behaviours (whether of staff, children or parents) that are not in line with the fundamental British values of democracy, rule of law, individual liberty, mutual respect and tolerance for those with different faiths and beliefs

Prevent Strategy

Under the Counter-Terrorism and Security Act 2015 we also have a duty "*to have due regard to the need to prevent people from being drawn into terrorism*"

Legal framework
